I am so sorry for all Robyn and her family has had to endure these past few years....the pain and suffering and fear and desperation. I am relieved she is no longer suffering physically but i know the family will feel this pain for a long time to come. I pray for comfort and peace and hope for Chloe and Trystan and Craig. I will be thinking of you all. Although I never met Robyn in person, she had an impact on my life many times through email and our photography forum. Thank you for sharing her with us. She touched many many lives.

The type of cancer Robyn had is one of the most aggressive, quickest growing of all cancers. The fact that Robyn lived, truly lived 11 years while battling this is beyond what most people can understand. She was so full of life and had so much support from her family and friends that she packed a lifetime into forty-seven years. Many people I have known don't know how to appreciate the life they have or what to do with what they've got. Robyn did and she encouraged others in the same way. She is a light and love that will be sorely missed.

Craig, Chloe and Trystan, my heart continues to break for you. I cannot imagine the hole that such a special person will leave. The good news is that this is not the end, just a "see you later". Robyn is dancing in heaven, pain free and ready to see you again some day. If you ever need anything or come to FL for a visit please let me know.
